

- ▲ 20mm titanium dome tweeter, partially horn-loaded for improved off-axis response and extension well beyond 20Khz.
- ▲ High efficiency shielded Neodymium magnets for low magnetic leakage and high efficiency.

- ▲ Proprietary 5" & 6" drivers exclusive to Richter.

- ▲ Woven Kevlar cones for highly articulate sound and minimal breakup.

- ▲ Extra-large vented magnet assembly for improved power handling, and low distortion.

- ▲ High quality low mass neoprene surrounds for high efficiency and long life.

- ▲ Bullet dust caps for extended midrange performance.

- ▲ Rigid construction with multiple cross-bracing.
- ▲ Thick layers of Australian wool damping for uncoloured sound.
- ▲ Vented low Q response for clean, fast, extended bass.
- ▲ Large diameter ports to eliminate chuffing.
- ▲ Minimal intrusion low order crossovers with ultra high-grade Polypropylene capacitors and large low-loss inductors.
- ▲ Gold-plated terminals.
- ▲ 8x steel isolation spikes for all floorstand models.

LEGEND CENTRE SE

Type:	Vented 2-way (D'Apolito array) magnetically shielded
Tweeter:	20mm titanium dome
Mid/Bass	130mm (5") Kevlar
Frequency Response:	50Hz-25Kz
Sensitivity:	87dB/W/M
Nom. Impedance:	6 Ohms
Dimensions:	W 600, D 248, H 150

LEGEND REAR SE

Type:	Sealed 2-way wall-mount magnetically shielded
Tweeter:	20mm titanium dome
Mid/Bass	130mm (5") Kevlar
Frequency Response:	65Hz-25Kz
Sensitivity:	86dB/W/M
Nom. Impedance:	6 Ohms
Dimensions:	W 355, D 115, H 300

A MORE BEAUTIFUL LEGEND

SOME LEGENDS grow more beautiful in the telling. So it is with Richter's renowned Legend SE speaker systems.

They are legendary because of their sonic qualities – clear, firm and luscious.

Legendary because of their looks – the SE series is gorgeous in rich, natural Queensland cherrywood.

And legendary because their value for money leaves imported pretenders in the mists of obscurity.

Year after year Richter loudspeakers scoop the award pool with rave reviews. Founded on Richter's design expertise and using the latest hi-tech materials, each Legend model is crafted to exceed the exacting demands of this digital age. Whether you get your kicks from the concert hall, the dance club or home theatre, the Legends will deliver effortlessly.

Part of the secret is our unique, expertly designed drivers. And now the mighty Thor Mark IV subwoofer has joined the Richter stable, its driver built from go to WOW for one purpose only – to deliver foundational bass so solid it becomes part of the room, so responsive it keeps up with the most nimble double-bassist, bathing you in a sound so smooth you'll want to touch it.

- ▲ Massive, flexible roll surround to give unrivalled driver excursion when dealing with ultra-low frequencies

- ▲ Rigid, low compliance driver for long-life tight performance

- ▲ Industrial-strength magnet assembly equal to the heavy load imposed by deep bass

Home Theatre Speaker System of the Year (Harlequin/Krakatoa/Centurion)

LOUDSPEAKER \$1000-2999/PAIR Richter Wizard Mill

HARLEQUIN MARK III SE

Type:	Vented, quasi 3-way, magnetically shielded
Tweeter:	20mm titanium dome
Midrange:	130mm (5") Kevlar
Bass:	130mm (5") Kevlar
Frequency Response:	48Hz-25Kz
Sensitivity:	88dB/W/M
Nom. Impedance:	6 Ohms
Dimensions:	W 180, D 255, H 860
Match with Amplifiers:	10-120 Watts

WIZARD MARK III SE

Type:	Vented, quasi 3 way
Tweeter:	20mm titanium dome
Midrange:	150mm (6") Kevlar
Bass:	150mm (6") Kevlar
Frequency Response:	34Hz-25Kz
Sensitivity:	90dB/W/M
Nom. Impedance:	6 Ohms
Dimensions:	W 210, D 310, H 900
Match with Amplifiers:	10-150 Watts

DRAGON MARK III SE

Type:	Vented, quasi 4 way
Tweeter:	20mm titanium dome
Midrange:	150mm (6") Kevlar
Bass:	2x 150mm (6") Kevlar
Frequency Response:	29Hz-25Kz
Sensitivity:	91dB/W/M
Nom. Impedance:	4 Ohms
Dimensions:	W 210, D 415, H 980
Match with Amplifiers:	20-200 Watts

KRAKATOA

Purpose:	Home theatre/music reinforcement
Enclosure:	Dual vented, full acoustic damping, full perimeter bracing
Driver:	Low mass 250mm (10") cone, Ultra high excursion technology High temp 50mm Kapton voice coil
Amplifier:	100 Watts RMS, <0.009% THD, 0°/180° phase switch, auto on, thermal/soft clipping protection, Low/high level operation
Frequency Response:	22Hz-180Hz
Dimensions:	W 390, D 420, H 390

THOR MARK IV

Purpose:	Home theatre/music reinforcement
Enclosure:	Dual vented, full acoustic damping, full perimeter bracing
Driver:	Low mass 300mm (12") cone, Air-vented 4-layer 50mm diameter Kapton VC, extended travel suspension, Low-Q 300W long-term max. power, 32mm useable excursion
Amplifier:	200 Watts RMS, <0.002% THD, auto on, 0°/180° phase switch, crossover bypass Thermal/soft clipping protection, Low/High level operation
Freq. Response:	19Hz-180Hz
Dimensions:	W 440, D 460, H 530
